Remarks

Claims 1-4, 8-15, and 19-33 are pending.

Terminal Disclaimer

1. The terminal disclaimer filed on 3/6/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,763,460 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-4, 8-15, and 19-33 are allowed. The following is an examiner's statement of reasons for allowance: The closest prior art (Delprat, U.S. Patent 5,497,396) teaches the transcoding and transmission of data, including both encrypted and non-encrypted data, but does not teach the inclusion of the additional parameters (security information and transcoding-type information) with the data used to define which parts of the partially encrypted data are encrypted, and how to transcode each of the types (encrypted vs. non-encrypted).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
